### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance. The prior art made of record in the attached form PTO-892 considered to be pertinent to the submitted application.

Dubus et al. US # 6,894,402 teach control of electrical alternator/starter, for a motor vehicle. Wherein, the heat engine is capable to operate either as an electrical generator in the alternator mode or as an electric motor during starting mode. And wherein, the machine is driven according to two modes corresponding to different speed/torque characteristic curves. When driving in starter mode the invention makes it possible to drive the heat engine of the vehicle in order to start it with high torques at low speed, while in the second mode, called auxiliary-motor mode makes it possible to drive at least one power consumer unit, such as an accessory, and/or the heat engine at higher speeds and lower torques.

However, none of the prior art teaches or suggests the combination of claimed limitations including:

- An inverter that is powered in motor mode by a start-up control unit which has a secondary voltage source that can provide a voltage greater than the voltage present on the electric power network to increase the machine torque at the start-up of the electric motor, in that the inverter is connected to the positive terminal of the secondary voltage source via first switch in motor mode, and in that the rectifier bridge is connected to the positive terminal of the main battery via a second switch in alternator mode.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rita Leykin whose telephone number is (571)272-2066. The examiner can normally be reached on Monday-Friday 8:00-4:30.
